

THE SILVER BULLET[®]

The premium telescopic actuator pole for unlocking semi-automatic twist locks

TECHNICAL SPECIFICATIONS

Tube Material	Anodized Aluminum
Button Material	Stainless Steel
Total Weight	4.7 kilograms
Collapsed Length	2.45 meters
Maximum length	7.80 meters
Capability	Unlock semi-automatic twist locks on all combinations of containers up to and including 4 x 9'6

FEATURES

The Silver Bullet has an impressive list of features that have been specifically designed after extensive consultation with unlashing personnel

SOLID STAINLESS STEEL DOUBLE BUTTONS

Solid stainless steel double buttons firmly lock the Silver Bullet together at any combination of containers up to and including 4 x 9'6

MACHINED HOLES AT SPECIFIC HEIGHTS

To simplify the extension process, holes have been machined at specific positions based on the height of the containers that need to be unlocked and include every combination of containers up to and including 4 x 9'6

ENGRAVED HEIGHT INSTRUCTIONS

To simplify the extension process, each pole has been engraved with the height combination of containers that can be unlocked from that position and includes every combination of containers up to and including 4 x 9'6

THE SILVER BULLET®

The premium telescopic actuator pole for unlocking semi-automatic twist locks

LARGE MACHINED SLOTS

Large machined slots have been machined into the outer tube to give easy access to the solid stainless steel double buttons with gloved fingers

MACHINED SECTIONS TO ENHANCE GRIP

Two sections on the outermost tube have been machined with a specifically designed pattern to enhance grip

ONLINE TRAINING VIDEOS

To ensure unlashng personnel and managers maximise the features of the Silver Bullet, online training videos are provided that cover how to use, how to maintain and strategies to maximise the investment

ROTATION IMPOSSIBLE

The Silver Bullet has been specifically designed to ensure that it is impossible for any tube to rotate inside any other guaranteeing that when the Silver Bullet is extended the solid stainless steel buttons find the hole every time

UNLOCKING TOOLS

The Silver Bullet comes with whichever tool unlashng personnel prefer. Two options are currently available but we can manufacture to your specific requirements.
